

Opalescent Vase **BAMMAKO**

By Rene Lalique

First executed in 1934

An opalescent glass vase, with rows of hemispheres covering the entire surface of the vase. Each hemisphere is outlined by a circle of tiny little hemispheres.

Height : 18 cms

Signatures : Acid-stamped 'R LALIQUE France' on base

Reference : (i) Felix Marcilhac, Rene Lalique – Catalogue Raisonne
Des Oeuvres de Verre, Paris, 1989, p. 461,
No. 10-882.

The opalescent version of *Bammako* is quite rare, with very few appearing on the open market over the last two decades. Because it is a mould-pressed vase, it is quite heavy.
