

## OPALESCENT **POISSONS**

By Rene Lalique

First executed in 1921

---

An opalescent blue vase of almost-round shape, with small aperture, the design of carp covers the entire vase. The recesses have a dark patina, which highlights the pattern.

Height : 24 cms

Signatures : Moulded 'R Lalique' and engraved 'France' on base

This model was produced in clear, opalescent, red, amber, electric blue, green, and yellow. The electric blue version is extremely rare, as well as the other colours. There are a number of collectors of ***POISSONS***, firstly because it is such a pleasing shape and design, and because it was made in many colours.

This version has an extremely strong opalescence, and sets it well above other opalescent versions.
