

‘MOUETTES’ CHARGER

By Emile Gallé
Circa 1900

A large museum quality rare Gallé charger, with translucent aquamarine glass, overlaid and carved with creamy white layers, and etched with five seagulls gliding over choppy waves, looking intently downward for feeding opportunities.

Diameter : 41 cms

Signatures : Intaglio ‘Gallé’

Reference : cannot find this design referenced in a book

The contrast between the aquamarine ground and the creamy-white overlay is stunning, with the largest and foremost seagull, as well as the others set further back, accurately depicted above the choppy turbulent waters.
